Education

- **Indian Institute of Information Technology, Jabalpur** 2021-2025
Bachelor of Technology, Computer Science Engineering CGPA : 8.4

Work Experience

- **LetsTransport** 07/2025 - Present
Software Development Engineer 1
 - Built an end-to-end Insurance CRM, digitizing case management, financial workflows, approvals, and analytics.
 - Building the PTL platform from scratch, implementing core modules for scalable transportation operations.
 - Engineered a multi-LSP broadcast model, reducing order-state anomalies by 99% through race-condition fixes.
 - Built a real-time Supplier Dashboard, reducing manual reporting effort by 70% and replacing Excel tracking.
 - Built a self-service SME payment portal, reducing payment TAT from days to minutes
- **Lava International Ltd.** 12/2024 - 06/2025
SDE Intern (Application Development)
 - Developed Android app interfaces using Java/Kotlin & XML, enhancing UI responsiveness and performance.
 - Implemented local & cloud data storage with real-time sync using Firebase & SQLite, improving data reliability.
 - Integrated Bluetooth-based communication for TWS devices, enabling low-latency, real-time device interaction.
 - Applied SDLC principles throughout the development cycle—requirement analysis, implementation, testing, & release.

Skills

- **Programming & Development:** C++, Java, Go, Python, PHP, JavaScript, SQL, Express.js, REST APIs
- **Android & Web Technologies:** Android Development (Java, XML), PostgreSQL, MySQL, HTML, CSS
- **CS Fundamentals:** Data Structures, Algorithms, DBMS, Operating Systems, OOPs, SDLC, Agile Methodologies
- **Problem Solving:** Experience in **competitive programming** on **code360** (Rating:2194) and **Leetcode**.
- **Tools & Soft Skills:** Git, GitHub, Leadership, Team Collaboration, Effective Communication, Active Listening

Projects

- **InitiateAI - From Business Problem to Execution Plan**
 - Tools & technologies used: **ReactJS, Go, OpenAI API, PostgreSQL**
 - Built an AI-powered project initiation platform that converts business problems into execution-ready project plans.
 - Engineered adaptive AI discovery workflow to analyze business context, root causes, hypotheses, and knowledge gaps.
 - Automated solution evaluation, project charter, KPI, and task generation using structured AI outputs.
- **Rakshak - A medical infrastructure management portal**
 - Tools & technologies used: **HTML, CSS, Bootstrap, Javascript, SQL, Php**
 - Enriched with **10+ features** including experts advice, hospital information, appointments, subscription plans etc.
 - **Enhanced UX with 4 dedicated views** for patients, doctors, hospitals, and administrators, improving accessibility.

Awards & Achievements

- **EXCALIBUR 23' Finalist – a hackathon organized in annual techfest of NIT Kurukshetra** 01/2023
 - Finalist at EXCALIBUR 2023, secured 3rd place among 250+ teams & received a special mention for the project

Position Of Responsibility

- **Project Lead & Documentation Head - Fusion (ERP Software), IIIT Jabalpur** 2024-25
 - Led stakeholder communication, aligned functional & non-functional requirements into optimized use cases.
 - Collaborated with database teams to restructure 400+ tables, reducing redundancy & improving system performance.
 - Developed automation algorithms for course registration and a transcript generation system, increasing efficiency.

Certifications

- **Oracle Cloud Infrastructure 2025 Certified Foundations Associate - Link** 09/2025
